

DC220 Series

# DC220 Load bank

Light weight, compact load bank providing 10.5kW of load capacity; 210A from a 50V source.

# **Key features**

## **Portablility**

Lightweight enclosure manufactured from aluminium and fitted with a carrying handle.

## Easy to use

Load banks are supplied with two power cables with quick release connectors. Included with the unit is one set of (2 x) 50mm2 cable, 2.5m long with M12 lugs for supply side connection.

#### Precise control

9 switched load steps including a fully variable section provide a load bank with precise control from 0.6A to 5A.

#### **Current measurement**

Fitted with a shunt resistor for accurate current measurement capability, the DC220 provides 2 banana plugs for connection to an external display and/or logging system.

# **Optional extras**

- Additional supply cables available in 5m lengths as standard or made to custom length if requested, with supply side connection method to suit the intended use.
- **Protective PVC cover -** available for protection during transport or storage.

# **Ratings**

50 Voltage, V DC Maximum capacity, kW 10.5

Current range, A 0.6 to 210

## **Control and ventilation**

Manual controls 9 x Load section toggle switch

1 x Rheostat variable section control

Control interface Manual controls (described above)

1 x Current shunt with 100A/100mV

1 x Audible over-temperature alarm

Forced convection, horizontal orien-Cooling

tation

Fan(s) 2 x DC axial type

Control supply 48V DC

Source Internal, taken from supply under test

## **Connection interfaces**

Load controls 2 x Quick release connectors

(1 cable set included)

Measurement

connections

2 x 4mm Banana sockets

## Safety

Over current and short circuit Electrical

protection fuse protection

Thermal Alarm Over temperature alarm buzzer

## **Operating environment**

Indoor use only Suitable for -10°C to 50°C Ambient temperature

Humiditity 95% RH Ingress protection IP20

## **Construction**

Resistor elements Wound steel tape

Element material High grade stainless steel

Enclosure Aluminium; painted RAL9002 grey

**Portability** 1 x integrated carry handle

# Weight and dimensions

See general arrangement drawing reference 161509

Length, mm 540 310 Width, mm Height, mm 500 17 Weight, kg

## Testing and standards

Every unit is subjected to routine testing before dispatch, including functional operation, electrical insulation testing and visual inspection.

Declaration of conformity document reference: 161510

#### **Documentation**

Supplied with an operation and maintenance manual and routine test report as standard.

## Training and support

Training can be provided by the manufacturer at our headquarters or on-site, please contact our support team to find out more.

#### Warranty

The equipment is covered by a 12-month warranty.
